

# **Hebei United University**

Hebei United University, is located in Tangshan the most promising city at the center of Bohai Bay Rim, is one of the **Ten key universities of Hebei Province**, China. It is a comprehensive university taking engineering and medicine as the backbone and pursuing a harmonious development of engineering, medicine, sciences, economics, management, law and humanities. Education programs are provided for masters, bachelors, international students and adult students.

Hebei United University was co-established by Hebei Polytechnic University and North China Coal Medical College under the approval of the Ministry of Education. Substantially the two universities were combined into one. Hu Jintao, Jiang Zemin, Wen Jiabao, Zhu Rongji, Jia qinglin, Li Changchun and many other state leaders, foreign diplomats and guests have paid inspection visit to Hebei United University.

The university has good teaching resources. It has 1538 teachers including 377 professors and 566 associate professors. 473 teachers hold doctoral degrees. 80 scholars are awarded honorary titles by the State, Province and Ministry of Education. 20 academicians are employed to work part-time. There are over 48,000 full-time students of all kinds, including many international students. The university has 8 campuses covering an area of 1,540,000m<sup>2</sup>, a floor area of 1,000,000m<sup>2</sup>. The total value of teaching and research equipment is 500 million Yuan RMB. It possesses first-class language labs, multimedia classrooms, E-reading rooms, CAD centers, computing centers, audio-visual centers and network centers. The A level university library has a possession of 2.1 million books and journals, 2.6 million kinds of E-books, and 30 large-scale databases. The university is the publisher of 6 journals in engineering, natural sciences, social sciences and medicine. The first-class affiliated hospital with outstanding professionals and advanced facilities has passed the ISO9001 authentication.

Hebei United University started to offer master programs in 1985. From 1998 it began to cooperate with Chinese Academy of Sciences, Northeastern University, University of Science and Technology Beijing, China Medical University and so on to provide joint doctoral programs.

The university consists of 31 colleges, offering 80 undergraduate programs, 138 master programs including 4 professional degree programs and 12 masters of engineering programs.

Quality of education is constantly paid the highest attention. In recent years the university has scored A in National Assessment for Undergraduate Education by Ministry of Education, National Assessment for English Majors, National Assessment for Education Management and National Assessment for Adult Education. 48 awards for outstanding teaching achievements have been rewarded by state and provincial authorities. Students of Hebei United University have obtained more than 800 awards in all kinds of contests, including U.S College Students Mathematic Modeling, National E-Design Contest, National English Speech Contest, etc.

Great achievements have been made in scientific research. In recent years about 60 awards at state and provincial levels have been obtained. About 142 scientific projects have been sponsored by “11th five-year Plan” for National Technology Support, “863” Program, “973” Program and National Natural Science Research Foundation. 279 patents have been authorized. Cooperating with enterprises, over 200 joint research projects have been developed. The findings of more than 600 projects have been commercialized, producing about 12 billion Yuan RMB worth of economic benefits.

The university has constantly paid high attention to international exchange and cooperation. Close links have been established between Hebei United University and more than 20 foreign universities, including University of Lincoln, Institute of Education London University, University of Leeds, University of Northumbria, University of Massachusetts Amherst, Purdue University, Colorado Technical University, California State University East Bay, Everett Community College, University of British Columbia, University of Ottawa, Hokkaido University, Tohoku University, Yamagata University, Konkuk University, Korean Maritime University, Silla University, Inha University, Yonsei University, South Australia University, University of New South Wales in Australia, the Universidade Federal de Ouro Preto, University of Miskolc, University of Pecs, Pacific State University, Tomsk State University, Tomsk Polytechnic University, Dresden University of Technology. Cooperation has been carried out in various ways, such as teacher and student exchange, joint education program, regular academic seminar, international summer school program, joint scientific research, etc.

## Location

**Hebei United University** is very strategically located, in Tangshan City, Hebei Province, near Beijing(180 Km East of Beijing) and there is a direct bus service from Beijing Capital International Airport, twice a day to Tangshan city.

As we all know China is a very large country and travelling in China is difficult, due to language barriers and also expensive. When choosing an institution for learning, please keep in mind that intuitions around Beijing, Shanghai, Hong Kong and few other major cities of China, are not only easy to get to but also the teaching quality is good, this is because the general public and the teachers speak fairly good English in large cities as compare to smaller cities or towns.

## **Eligibility:**

Minimum 60% in biology and english in class 12

Minimum 50% in physics and chemistry in class 12

## **WHY STUDY IN CHINA**

China is definitely a place for people who enjoy a challenge. A huge, diverse country with a long, long history, there are so many fascinating aspects to explore. It may be over 700 years since Marco Polo chronicled his travels around China, but even today few Chinese outside of the main cities have ever seen a 'Laowai' because the country and its culture remain inaccessible to the vast majority of westerners.

East Asia is one of the most economically dynamic regions in the world and will China will soon rival Japan as the second largest economy in the world. China is host to numerous U.S. multi-national firms or their subsidiaries (including Coca-Cola, Ford, GE, GM, KFC, Kodak, McDonald's, Motorola, Wal-Mart, and Xerox). China makes more than 50% of the cameras sold worldwide; 30% of the air conditioners and televisions; 25% of the washing machines; 20% of the refrigerators; 40% of all microwave ovens sold in Europe.

Studying in China may be the best possible way to adventure. In addition to picking up Chinese skills, you will also learn about a fascinating culture and a very different way of life.

China's universities attach great importance to good school spirit. In many universities, a good school spirit is embodied by diligence, hard work, strictness, realism, pioneering, innovation and originality. Based on the characteristics of their specialties, different universities accentuate specific aspects of school spirit.

For instance, medical universities install in their school spirit the concept of humanitarianism; normal universities recommend the students to develop the spirit of sacrifice and be paragons of virtue and learning; and universities of political science and law encourage the students to cultivate noble characters and to be upright and just, honest and faithful to the duties. By studying in China you will gain academic success, grow as an individual and go on to bring great honor to your homeland when you return
